Artisanally Hand-crafted HeavenSentHemp™ Extracts for Internal Use

We have three flavors of internal use extracts — all in a base of our pure, hand-pressed, Organic, extra virgin olive oil:

- **Chocolate Mint** is Lightly sweetened with our own extract made from organic stevia leaves.
- **Wild Berry** is Unsweetened, but tastes like it is! Elegant & Light.
- **Unflavored** is our "whole plant" extracted solely into Organic, extra virgin olive oil. (This product is also great for pets!)

* We use only USDA Organic flavoring oils in our internal products for highest bioavailability and maximum bioactive delivery.

With over 500 naturally occurring compounds (including 600mg CBD/oz) in our consciously created, "whole plant" extracts, our products nourish your entire "endocannabinoid system" to help your body gently adapt to the needs and stresses of your daily life.

Once nourished, the transmitters and receptors of your internal endocannabinoid system help restore harmony, strength and balance to your body, mind, spirit and mood.

Suggested Use for our internal HeavenSentHemp™ products:

15 drops to one dropper-full under tongue, 2 times/day for optimal benefits. Swirl in mouth for at least 15 seconds before swallowing, for best results.

"From nature's wisdom to your hands... Reach for HeavenSentHemp!"
