

How our HeavenSentHemp™ Products can help you and your family...

Our Industrial Hemp whole plant extracts help to regulate “Whole body homeostasis” by naturally balancing systems that affect mood, energy, health, pain level and mental clarity.

Transdermal Roll-On:

Brings Fast-acting relief from many kinds of pain. For best results: Roll on nape of neck, down spine, throat, temples, ears, forehead & any pain points, at least twice a day or more as needed. Rub in well.

ORAL – Chocolate Mint, Wild Berry & Unflavored:

With 500 naturally occurring compounds (including 600mg CBD/oz) in our uniquely hand-crafted “whole plant” extract, our products nourish your entire “endocannabinoid system” to balance & feed cell receptors & help restore harmony and balance to your body, mind and spirit. It also strengthens deep cellular communications, creating an “ensemble” effect” of elegant homeostasis.

Note: Cell receptors & subtle systems are often “starving” for the natural compounds that this healing “whole plant” provides. Once “fed” or filled, the deep, inner cellular communications can begin to heal imbalances gently and naturally.

- * **Chocolate Mint** is Lightly sweetened with our own extract made from organic stevia leaves.
- * **Wild Berry** is Unsweetened, but tastes like it is! Elegant & Light. A classic favorite.
- * **Unflavored** is our “whole plant” extracted solely into Organic, extra virgin olive oil. Nutty, organic flavor.

CHT + is a natural “Shot of Light” energy amplifier, that’s better than afternoon coffee! No THC. Made entirely of “Colloidal Hemp Terpenes”. Processed within hours of harvest for maximum fresh terpene impact & bioactivity. Boosts clarity and gently amplifies energy. Great for sports, special projects, extra focus or anytime you want an extra, natural boost of energy.

About our “whole plant”, natural products:

We strongly believe that the natural symphony of over 500 healing compounds provided by whole plant hemp more coherently addresses metabolic imbalances than single compound, isolate solutions. While CBD has received significant attention, the “ensemble effect” of “whole plant” extraction, as demonstrated in recent international studies, illustrates the superior effectiveness of whole plant extractions over cannabinoid isolates. Our products harmoniously help relieve pain, restore deep balance, inner strength, clarity and wholeness to your Life.

At “HeavenSentHemp™” we utilize age-old, hand extraction methods with great consciousness and care, slowly allowing the divine intelligence of this sacred plant to gift you with its own natural healing energies.

Our small batches, nurtured with gentle, hand-crafted attention, deliver products with the highest bioenergetic levels found in the industry today. Clinical tests, performed by holistic doctors nationwide, continue to confirm this.

We use a base of certified organic, extra virgin olive oil and only organic essential oils in all of our products. Our **CHT+** has a clean, organic alcohol and glycerin base with a high concentration of terpenes that were hand-extracted only hours after being harvested, giving you the most powerful “Shot of Light” possible.

* We are the only company in the US that offers this Colloidal Hemp Terpene product.

* Every batch is third party tested for chemical analysis and is on our website. Each batch number is at the base of the full size, 1oz bottle or on the info card of our 5 ml Trial size bottles.
